Support and Organization

Letters from the Organizers

The V Rede-TB Workshop is going to occur along with the 52nd Congress of the Brazilian Society of Tropical Medicine (Location: Convention Center - Maceió / AL). In V Rede-TB Workshop will aim on activities that help Brazil in the insertion of the Pillar number 3 (Research). These pillar is proposed by the World Health Organization in the actions of the National Strategic Plan for TB control.

The workshop is organizing in 13 miniconferences, 20 round-tables, 3 symposiums, 20 free topics and 250 abstracts that will be presented at Poster session.

It is critical the agreement with the search platforms identified in the National Research TB agenda elaborated in 2015. In this regard, all participants will receive by e-mail the consolidated National Research Agenda for TB developed in 2015, and also a link to answer an online form (via cell phone) to assist in the prioritization of research areas in TB.
